3557 Briggs N.E. This mid-20th-century modern house was designed and built by Bronkema Builders, Inc., in 1954. It is one of several 1950's homes in the city by Grand Rapids designer/builder James Bronkema. Joann Ricci and John R. Coulter bought the house from the original owners in 1992 with most of its classic elements of mid-century modern design intact, including a flat roof and built-in shelving, bureaus, bed headboards, and couches.
